

# Managed Security Services

## Security at the speed of your business

### Why Digital Hands:

We make rapid growth and business transformation possible by building security into everything you do.

We help you unleash your businesses' full potential by enabling the rapid adoption of new technologies. We protect your brand and the value of your business by detecting and minimizing the impact of cyber-attacks. We give you an edge in a highly competitive hiring market by providing access to our highly skilled team.

New threats need a fresh approach. Our lifecycle approach is designed to decrease cost and complexity, while moving your organization toward a more mature security posture.

### Our portfolio:

## 6 Reasons to Work with Digital Hands

Digital Hands helps you keep up with the threats to your organization. We pave the way for you to deliver reliable, fast, high quality services to your customers. We have been safeguarding information assets for some of the world's largest organizations for nearly 20 years. As the threat landscape evolves faster than ever, we continue to equip you with the actionable intelligence, rapid detection and immediate response time to protect your brand, preserve shareholder value, and maintain your customers' trust.

ONE

### Flexible

For over 15 years, we have been committed to delivering the right service for your business. Our ability to offer co-management and to weave existing and emerging technologies into a comprehensive solution sets us apart.

TWO

### Trusted

Some of the world's largest brands trust Digital Hands to secure their business. We are a trusted partner who shares the burden of security tasks so you can focus on the strategic work that drives value for your organization.

THREE

### Innovative

We are constantly innovating to help your business embrace new opportunities without compromising on security. We enable you to operate securely in a highly volatile world, without constraints.

FOUR

### Top Tier Relationships

We invest significantly into maintaining excellent relationships with the top vendors in the security industry. This means we have access to the training, technology and resources we need to deliver high quality services to you.

FIVE

### Security Pure Play

Security is our only business. We maintain a keen focus on knowing the cyber security industry space and mastering the technologies that are available. Our expert security operations team transfer that knowledge to your team.

SIX

### Certifications

Digital Hands meets or exceeds the exacting due diligence requirements of our Fortune 500 customers, industry standards, and the federal government with accredited staff, Secret Facilities Clearance, SAE-I 6, SOC Type II, ISO 27001, and PCI-DSS compliance.

## About Digital Hands:

Digital Hands is a cyber security company that enables businesses to grow without constraints and embrace a complex and ever-changing digital world.
